

## ***User-Friendly Online Loan Application***

### **Applying for loans has never been simpler**

At various stages in their lives, your members will want to purchase a new home or car, have unplanned medical expenses arise or unexpected opportunities occur. What do these large expenses have in common? Loans.

Your members are busy. Many of them do not have the time to visit your credit union in person to apply for a loan. The solution is an easy-to-use Online Loan Application that is fully integrated with your Keystone core.

### **Benefits of a fully-integrated Online Loan Application**

Your team is also busy. Not only do you want to serve your members quickly and accurately, but you also have other pressing duties. How can an Online Loan Application help your team and your members?

- Members can fill out loan applications online at any time.
- The integration between your Keystone core and the Online Loan Applications automatically retrieves and validates your member's information when a loan application is submitted.
- Members receive an immediate decision on their loan application.

With an Online Loan Application fully-integrated with Keystone, your team will be able to serve more members in less time while meeting them where they already are - online.
